Fire Alarm System Design, Training and Consultation Services

DrawFire, LLC is currently offering a part-time, contract CAD Designer opportunity. Qualified candidates will have entry-level to intermediate AutoCAD experience; fire alarm design a plus, but not required. The CAD Designer will utilize their AutoCAD to setup drawings and to make corrections to existing drawings.

RESPONSIBILITIES

- Work remotely and use file sharing to receive and deliver work
- Manipulate AutoCAD files from client and remove extraneous text, blocks and layers
- Set up drawings on title block at proper scale

QUALIFICATIONS

- Entry-level to intermediate AutoCAD experience
 - Basic understanding of drafting fundamentals, with the ability to use AutoCAD drafting software
 - Able to work with blocks, layers, scaling and attributes
- Fire alarm system design a plus, but not required
- Access to AutoCAD software
- Ability to read and understand drawings, scopes and specifications
- Strong communication skills, with the ability to work independently

Ideal candidate will work from home and have access to AutoCAD. This is a part-time, contract position and contractor agrees to be responsible for all federal and state taxes, withholding, social security and insurance. Resumes may be sent to the email below.

If you are interested in this part-time, contract opportunity, or have questions about the position please contact us at info@DrawFireLLC.com.
